

WATER SAFETY

# SWIM, BATHE AND PLAY THE SAFE WAY.

## ACTIVE SUPERVISION

Eliminate distractions like checking social networks or email and stay within arm's reach of young swimmers at all times.

## REDUCE RISKS

Install fences in swim areas, empty kiddie pools and tubs immediately after use, and provide swim lessons to children as young as one.

## BE PREPARED

Learn CPR and First Aid, know the signs of drowning and keep a phone close in case you need to call 911.
